SAYANDEEP ROY

Web Developer

About Me

I am a passionate Web Developer skilled in React.js, Next.js, TypeScript, and Tailwind CSS. Studying at Techno India University, I have build projects like CarePulse, Zentry and developed Sayanti Beauty Lounge's website. I am currently working on upscaling my skills on Android App Development. With AI expertise, I create engaging, responsive, and innovative digital experiences.

Professional Experience:

Full-Stack Web Developer

June 2023 – Present | Freelance & Open Source Contributions

- Developed and deployed CarePulse, a healthcare platform allowing users to schedule appointments efficiently.
- Designed and optimized Zentry, an interactive gaming website with smooth animations and immersive UI.
- Collaborated with designers and developers to build scalable, AI-integrated web applications.

Frontend Developer Intern

January 2022 – May 2023 | Tech Startup (Remote)

- Built and maintained responsive, mobile-friendly user interfaces using React.js and Tailwind CSS.
- Optimized performance, reducing page load time by 35% through code improvements and lazy loading.
- Developed anonymity-based confession app for college students, ensuring privacy and smooth UX.
